English version

HOUSEHOLD HYGIENE

1

Maintain good air ventilation at home

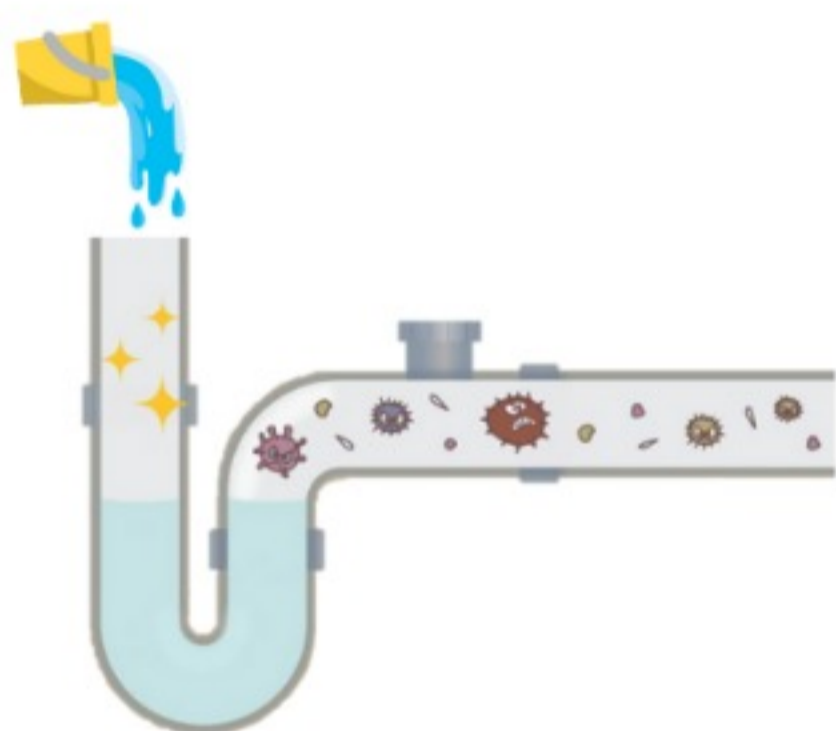

2

Children should have their own personal tableware, drinking and mouthwash cups, toothbrushes and towels

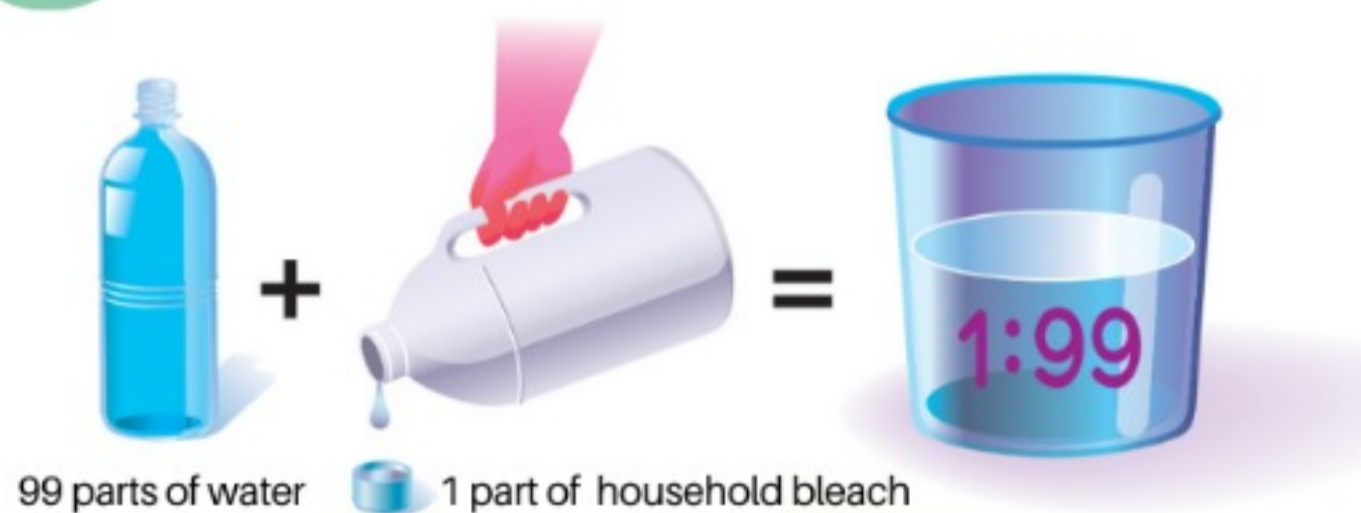

They should not share personal belongings with other children or adults.

3

Ensure U-traps drainage pipes are filled with water by pouring water to each drainage outlet daily

4

Clean your home with 1:99 diluted household bleach daily

Tips

Clean children's toys with 1:99 diluted household bleach daily and rinse the toys thoroughly afterwards.
